Josette Wohlers

"I have been on several arthritis medications to control the pain from back, knee and arm injuries. The Symmetry products are the first to help me without any negative consequences. I highly recommend the Advanced Omega product to any athletes suffering from pain due to injuries and arthritis. "

Product Information on Advanced Omega:

Essential Omega Daily Nutrition Fatty acids are essential for the maintenance of every organ in the body. The body doesn't manufacture them, therefore must come from proper food and supplementation.

It has been well documented through extensive studies that despite the high levels of fats in the diets of Greenland Eskimos, the population has remarkably low levels of cardiovascular disease. The agents responsible were Omega-3 fatty acids from their intake of cold-water fish.

Symmetry's Advanced Omega provides the crucial - omega 3 and omega 6 fatty acids needed for optimal brain development and proper blood circulation. Moreover, the caplets contain no metals or heavy toxins from the fish or sea, making for one of the most powerful yet safest products on the market, without any fishy odor or aftertaste.

Dr. Lewis Wright, MD
New York

"I can truly say that the quality of the Symmetry nutritional products has enhanced my health and, most importantly, allowed me to improve the

Body Support - Advanced Omega

Primary Support
