

Probiotic

GUT SUPPORT

A specialized formulation of clinically proven probiotic strains to aid digestion and improve overall gut health.*

Probiotix is the perfect mix of probiotics your body needs most during weight loss, and beyond.*

WHAT YOU SHOULD KNOW ABOUT GUT HEALTH*

Not all bacteria are bad – healthy bacteria, called “probiotics” help your body and metabolism function smoothly.

For many reasons, the bad bacteria in your system can overpower the good probiotics, disturbing your body’s natural balance.

Many probiotic supplements don’t actually deliver on their promised quantities, and are not absorbed effectively by the body.

A Few BILLION Probiotic Partners*

- 3 billion CFUs of probiotics per serving help promote healthy weight loss and optimum nutrient absorption, helping you feel your very best on your health journey.
- Tasty and fast absorbing, Probiotix rushes just the right kind and quantity of live cultures to your digestive system, while reducing gas and bloating.
- Probiotix helps ensure that while shedding pounds (and long after), your body gets the most nutrition possible from the healthy foods you’re eating.
